Important Notice

Prepaid electric service means you purchase electricity before it is used. You will not receive a regular, monthly bill. The continuation of electric service depends on you prepaying for service on a timely basis and if your current balance falls below the disconnection balance, your service may be disconnected with little notice.

Prepaid service is not available to customers who are officially designated as a Critical Care Residential Customer or a Chronic Condition Residential Customer. Some assistance agencies may not provide bill payment assistance programs to customers that use prepaid service. Additional information is provided below.
